**Casa Le Duc** is a small villa with pool in **Camposol**.

**Camposol** is a newly built white Spanish hamlet (pueblo blanco) near Mazarrón in the province of Murcia.

The fully furnished house with swimming pool is made accessible for people in a wheelchair. Thresholds are removed and there is a ramp to get into the house.

The kitchentop can be brought on the height of a wheelchair. There are supports next to the toilet and the toilet has a removable higher seat. The bath will be replaced by a shower with shower seat.

The livingroom is airconditioned, there is a wood burner and a Dutch satellite receiver with, among other channels, BBC Prime and BBC World.

There are two bedrooms, one holds a double bed and a single bed which is higher than a normal bed, and has electronically controlled head and feet sections (as you might find in a hospital). This bed also has a free standing lifting pole. The other bedroom has two single beds. Also, there is a (double) settee-bed in the living room.

The pool (3 X 7mtr and 140 cm deep) is 45 cm above ground level (see picture). This way it is possible to slide over from the wheelchair to the edge of the pool, and into the water.

The livingroom is airconditioned, there is a wood burner, a DVD player and a Dutch satellite receiver with, among other channels, BBC Prime, BBC World.

There are supports next to the toilet and the toilet has a removable higher seat. There is a shower with shower seat.

## Ramp for wheelchair
